

August 11, 1999

Dear Educator,

The Ulysses/Voyager Project teach-one-teach-many Interview Program (Spring 1999) was such a success among the students, teachers, or parents, we're doing it again! We would like to invite your school to participate in this unique project.

Through one student, this program is designed to share important facts about space science, mission operations, spacecraft design, and project management with many students.

Selection Process:

All students who wish to participate must submit a completed interviewer application form (available at <http://ulysses.jpl.nasa.gov>) to the Ulysses/Voyager Outreach Coordinator. Each student applying must obtain a letter of recommendation on the school letterhead from his/her Science Teacher (to be submitted with application). All application forms will go through a selection process (final selection made by Ulysses/Voyager Advisory Board).

Mail applications to:

Jet Propulsion Laboratory
Ulysses/Voyager Outreach Coordinator
4800 Oak Grove Drive
M/S 264-801
Pasadena, CA 91109-8099

For Spring 2000 interviews, applications must be postmarked by November 26 1999 or faxed to (818) 354-6134 by noon November 30, 1999.

Guidelines:

After the selection is made the interviewer may start planning the interview and the work involved in preparing for a formal interview with a Ulysses/Voyager project member.

The student should be aggressive in acquiring the information needed to do an informative but concise interview. (i.e. web sites, the project office, published articles).

Teacher and Parent participation encouraged.

The interviewee may be from the Ulysses Project or the Voyager Project.

Student may receive academic Credit (Principals decision).

Rules:

The interview must be taped (for reference and research purposes only.)

The interview may not be longer than one (1) hour.

The interview must take place within six (6) months and during the school calendar year.

Interview questions must be given to the Outreach Coordinator two (2) weeks prior to the interview.

Student must share what he/she learned with classmates or other education organizations (project office assistance with presentation materials).

Looking forward to working with your student.

Best regards,

A handwritten signature in black ink, reading "Andrea Angrum". The signature is fluid and cursive, with the first name "Andrea" and last name "Angrum" clearly distinguishable.

Andrea Angrum
